## Action Taken Report on Institutional Feedback from Students, Teachers, Alumni and Employers for the academic session 2022 – 23

The IQAC is responsible for the infrastructural as well as qualitative development of the college. To that respect it continuously takes feedbacks from different stakeholders. It plays a key role in the overall development of the College by evaluating the feedbacks from different stakeholders. By analyzing the feedback responses received from the students, teachers, alumni and employers it identifies the areas of further improvements.

- The teachers are the most important players within a teaching learning ecosystem. Their feedbacks show the proper paths of qualitative developments of the institute and the learners. Their views are also important for the improvement of facilities within the college.
- As the ultimate beneficiaries the student feedbacks are also important for the correct alignment of the teaching learning experiences. To achieve an improved learning experience the IQAC shares the department wise student feedbacks with the concerned academic departments. The systematic responses of the current students play an important role in the development of qualitative outcome in the teaching learning process as well as for the infrastructural development of the college.
- Feedbacks from students, teachers, alumni and employers also help to align the admission process, the infrastructural developments and outcome based education.
- These action taken reports on the basis of feedbacks are also important to create learning experiences more inclusive and comprehensive.

Prof. (Dr.) Nandan Bhattacharyya
